MRL (Machine Room Less)

OVERVIEW

Amruth Pravas Elevators MERIT is the ideal solution for any high rise residential or commercial building which has a constraint of having a machine room. It is thoughtfully designed, well crafted and smartly priced. MERIT employs a sturdy design and delivers a smooth ride even at high speeds. It has all the necessary safeties in place and is quick to install. MERIT a space saving design to give maximum cabin space in the minimum shaft size. This means less space for elevators in your plan and maximum saleable area. The elimination of machine room greatly improves the exterior of the building

KEY FEATURES

- ◆ Smoothest Travel
- ◆ Absolute Freedom in Building Designs
- ◆ Substantial Saving on Electricity Cost
- ◆ Save the Construction Cost
- ◆ More Safe
- ◆ ARD (Automatic Rescue Device)

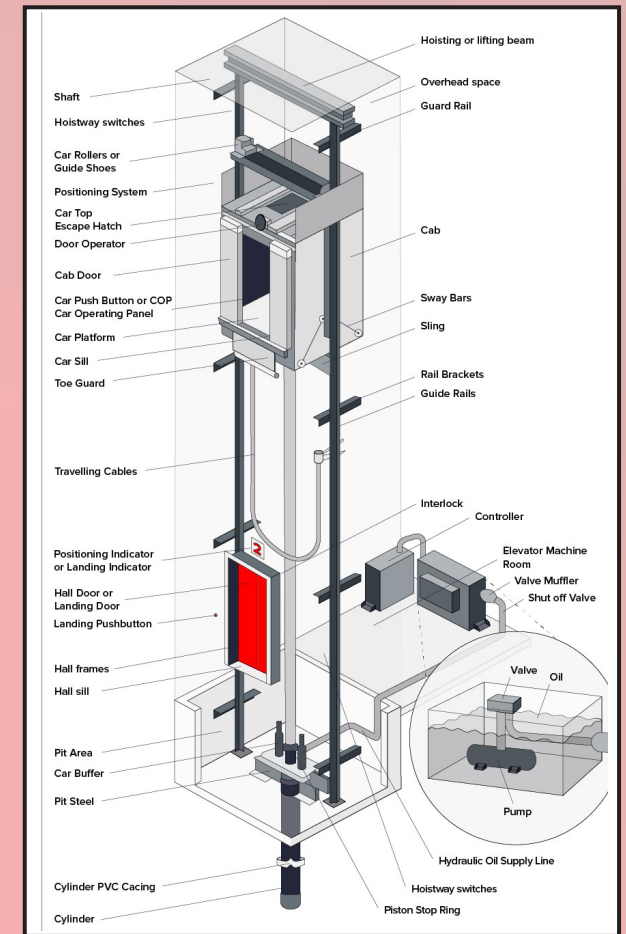

OVERVIEW

Amruth Pravas Elevators offers Hydraulic lifts that are artistically designed to be used in any commercial or residential space, There are 4 types of Hydraulic Lifts that we design D-Type, Panoramic, Bubble or Customized as per your requirements. Hydraulic Lifts designed by Beam Elevators are such that the passengers are provided with a panoramic view of their surroundings without any obstruction. These lifts are usually installed on the exterior face of the building or in the lobby. Hydraulic Lifts can totally change the look and aesthetics of any structure. Our Hydraulic Lifts give an additional eye-catching look to your modern building and act as the architectural highlight of the building. Our Hydraulic Lifts prices for homes are affordable for all our customers

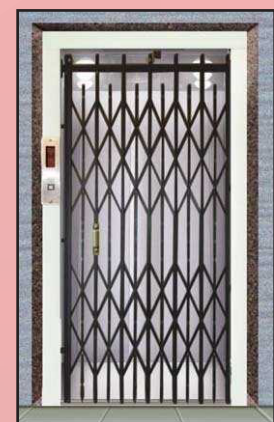

KEY FEATURES

- ◆ Noiseless Technology Improved Comfort
- ◆ Reduced Energy Consumption
- ◆ Environmental Sustainability / Easy Maintenance
- ◆ Reduced Overhead and Pit Requirements.
